Harley-Davidson sets the standard for making great motorcycles--and showing people how to enjoy them. Here's its story.

From electronic ignition to electronic fuel injection, slipper clutches to traction control, today's motorcycles are made up of much more than an engine, frame, and two wheels. And, just as the bikes themselves have changed, so have the tools with which we tune them. How to Tune and Modify Motorcycle Engine Management Systems addresses all of a modern motorcycle's engine-control systems and tells you how to get the most out of today's bikes. Topics covered include: How fuel injection works Aftermarket fuel injection systems Open-loop and closed-loop EFI systems Fuel injection products and services Tuning and troubleshooting Getting more power from your motorcycle engine Diagnostic tools Electronic throttle control (ETC) Knock control systems Modern fuels Interactive computer-controlled exhaust systems

This book was produced to commemorate Buell Motor Company's 25th anniversary. Illustrated by hundreds of photographs from private collections and corporate archives, it covers Buell's history from inception to the present. Erik Buell is, of course, at the center of this inspiring story, but the company has thrived not just because of one energetic, visionary man, but because that man was able to inspire others around him to give 110 percent to their common objectives. This story is as much about the people of Buell as it is the motorcycles of Buell. Both, as you will learn, are remarkable.

The 1970s was a great decade for British racing drivers, but it was also the era in which the nation lost a generation of brilliant young drivers - Roger Williamson, Tony Brise and Tom Pryce - in tragic accidents. All had the potential to be World Champions. With access to their families, friends and race colleagues, David Tremayne tells their full stories in this superb book, now available in paperback. It makes for poignant but uplifting reading.

Research has shown that the vast majority of children throughout Europe have experienced some form of corporal punishment. This publication considers how to raise public awareness against the use of corporal punishment, drawing on case studies of three successful public education campaigns in the UK, Poland and the United States. Issues considered include how to plan a campaign, target groups, and conducting media campaigns and local activities. It also includes three model questionnaires aimed at support services for children and families, for children and for professionals.
